

Project Name	Gas leakage and monitoring system
Team ID	PNT2022TMID19711
Date	16.11.2022

PYTHON CODE:

```
import random
print('Random number=',str(random.randint(0,100)))
print('Temperature=',str(random.randint(0,100)))
print('Humidity=',str(random.randint(0,100)))
```

The screenshot shows a code editor with a dark theme. The editor has a menu bar with 'File', 'Edit', 'Selection', 'View', 'Go', 'Run', 'Terminal', and 'Help'. Below the menu bar, there is a toolbar with icons for file operations and a search icon. The main area of the editor displays the following Python code:

```
1 import random
2 print('Random number=',str(random.randint(0,100)))
3 print('Temperature=',str(random.randint(0,100)))
4 print('Humidity=',str(random.randint(0,100)))
```

At the bottom of the editor, there is a terminal window. The terminal shows the command being executed and the output:

```
(krakenjame@jame) - [~/Documents/Code/HTML]
$ python -u "/home/krakenjame/Documents/Code/HTML/tempCodeRunnerFile.python"
Random number= 74
Temperature= 42
Humidity= 76
```

On the right side of the terminal window, there are three buttons labeled 'Code'.
